Fort Morgan Advisory Committee

Re: Case No. ZVA21-000026: Cardoso Property

General Location: Property is located at 6764 Driftwood Drive, in Planning District 25.

Parcel Identification Number: 05-68-09-30-0-001-153.001

Requested Action and Purpose: The applicant is requesting a variance from the wetlands buffer setback requirement to allow for the construction of a single-family dwelling and driveway.

The BCC Planning & Zoning Board of Adjustment Number 2 has received a request for a variance as described above. We request that you review the application enclosed and provide any comments you may have.

All comments are due on or before noon **Wednesday, February 2, 2022** and should be addressed as follows:

Linda Lee, Planner
Baldwin County Planning & Zoning Department
201 E Section Avenue
Foley, AL 36535
llee@baldwincountyal.gov
251-972-8523 ext. 2833
Fax: 251-972-8520

We sincerely appreciate your time and look forward to hearing from you soon.

Sincerely,

Linda Lee, Planner

PLANNING & ZONING BOARD OF ADJUSTMENT NUMBER 2

NOTICE OF PUBLIC HEARING

Case No. ZVA21-000026

Cardoso Property

Notice is hereby given that the Planning & Zoning Board of Adjustment Number 2 will hold a public hearing on Thursday, February 10, 2022 beginning at 03:30 PM at the Baldwin County Foley Courthouse Large Meeting Room at 201 East Section Avenue, Foley, AL 36535.

The Board will consider a variance application submitted by Larry Lawrence Custom Homes, Inc., for property located at 6764 Driftwood Drive in Planning District 25. The applicant is requesting a variance from the wetlands buffer setback requirement to allow for the construction of a single-family dwelling and driveway. The Parcel I.D. number is 05-68-09-30-0-001-153.001. You are receiving this notice because records of the Revenue Commission Office indicate that you are an adjacent property owner.

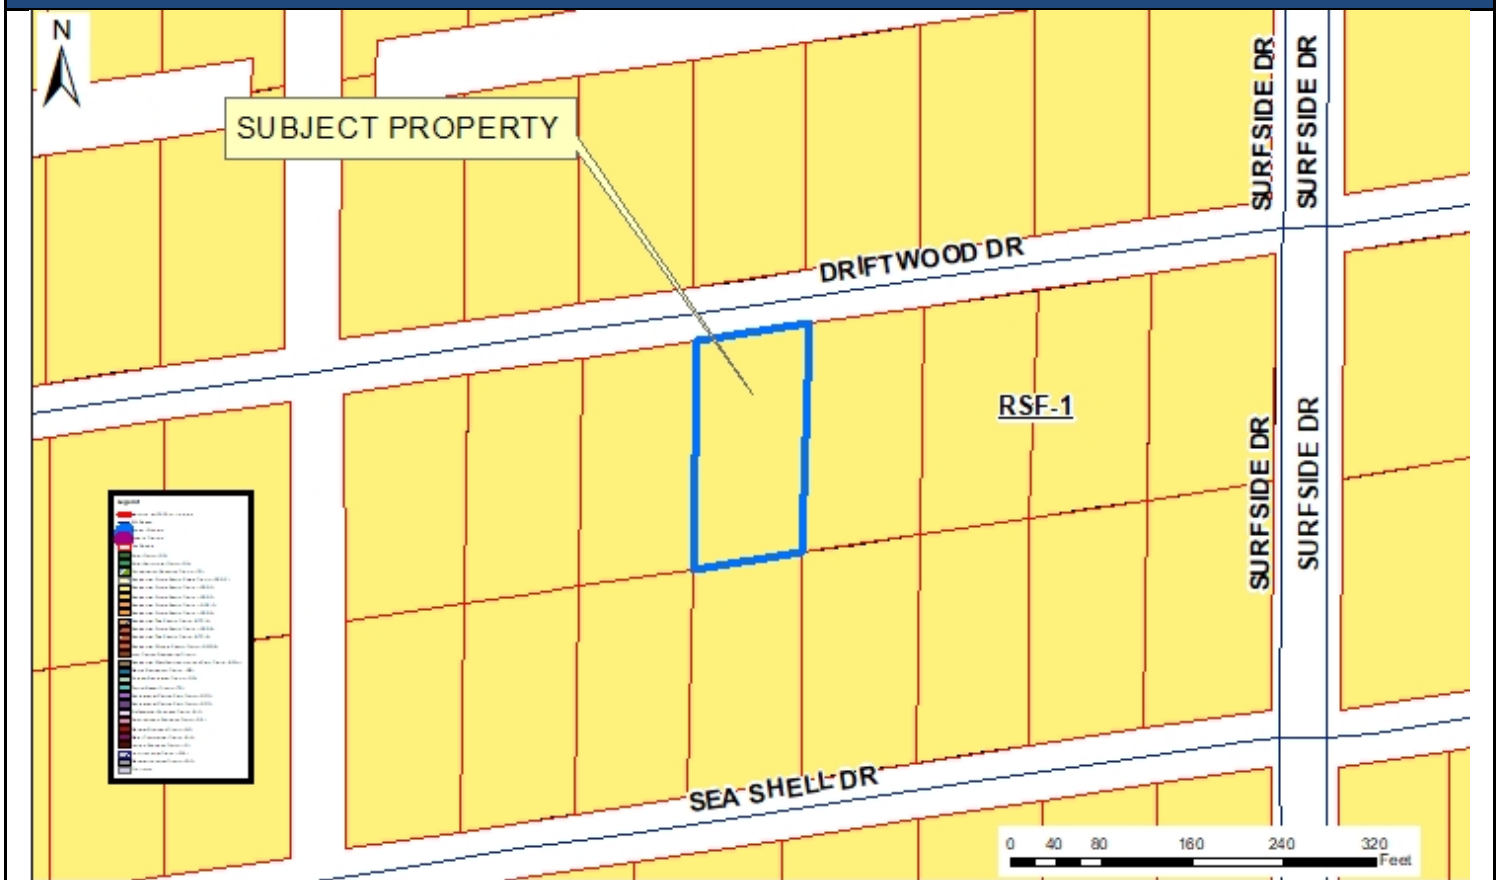

The said application will be considered by The Planning & Zoning Board of Adjustment pursuant to Alabama Code 45-2-261.10 and copies thereof are available for public review at the offices of the Baldwin County Planning & Zoning Department, 22251 Palmer Street in Robertsdale, AL and Foley Satellite Courthouse, 201 East Section Avenue in Foley, AL, during normal business hours.

Public participation is solicited without regard to race, color, national origin, sex, age, religion, disability. Persons who require special accommodations under the Americans with Disabilities Act or those requiring language translation services should contact the Baldwin County Planning & Zoning Department at 251-972-8523.

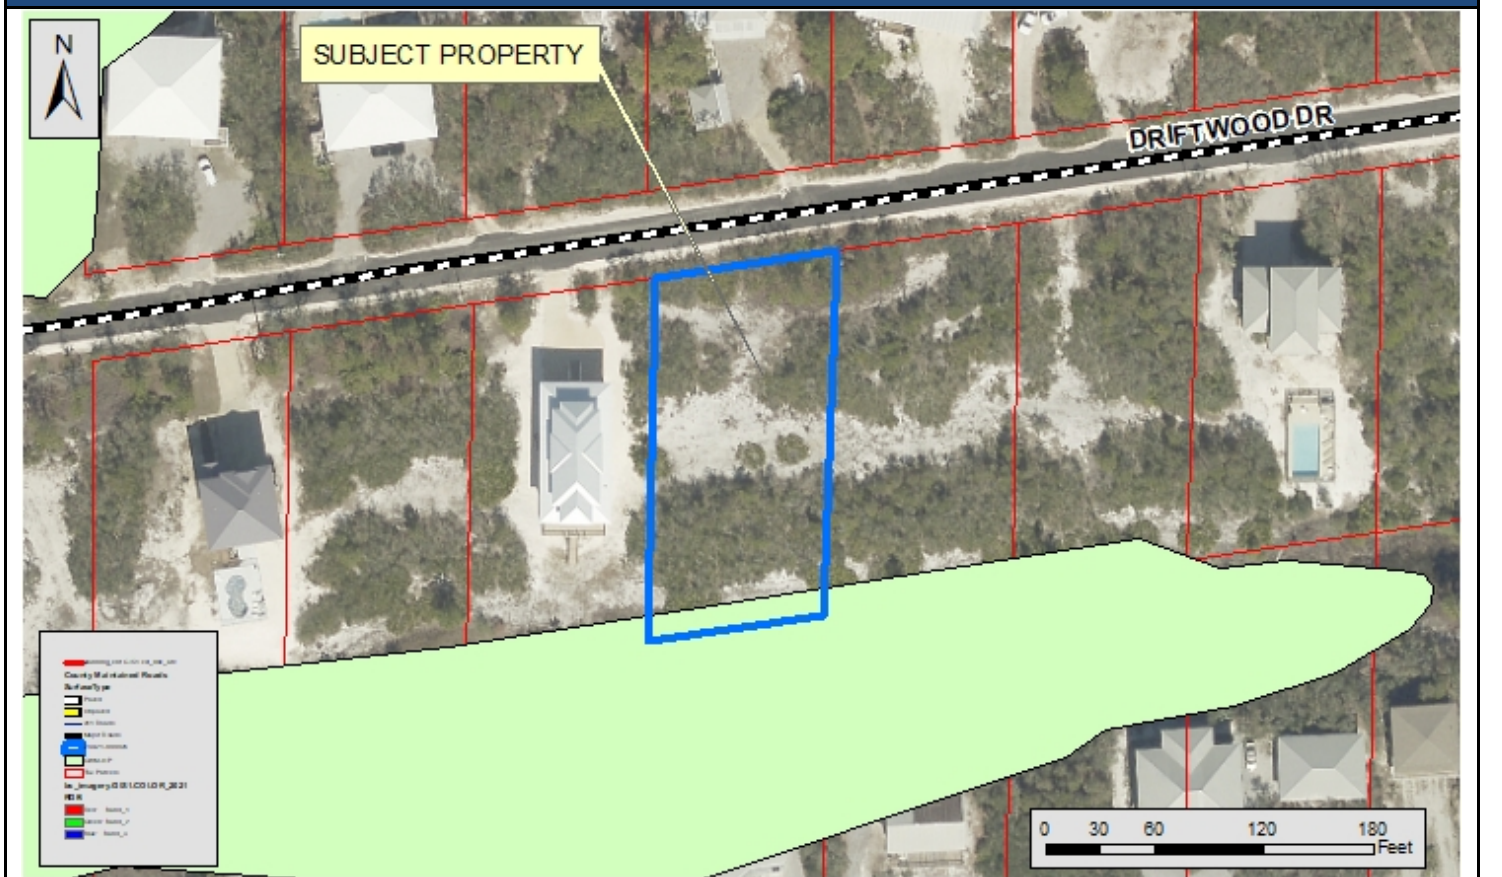

Should you wish to comment on the variance, you may address comments to the Baldwin County Planning & Zoning Department, 201 East Section Avenue, Foley, Alabama 36535 or you may fax them to 251.972.8520. If you wish to comment in person, please attend the meeting on the day and time provided above.

If you would like to be notified of other information on zoning and development in your area and throughout Baldwin County, please sign up to receive our "Get Notified" e-mails. Once subscribed, you will receive via e-mail our quarterly newsletter, agendas for upcoming meetings, action reports and other news and information. Field Supervisor, Alabama Ecological Services Field Office, Daphne, Alabama

Permittee:

Gail K Cardoso
191 Retreat Crossing
Dallas, GA 30132

Authority: Statutes and Regulations: 16 U.S.C. 1539a 50 CFR 17.22, 50 CFR 13

Location where authorized activity may be conducted:

The 0.465 acre lot is located of Driftwood Drive in the Surfside Shores subdivision, in Gulf Shores, Alabama or Parcel ID# 05-68-09-30-0-001-153.001 (Tax Pin 269842).

Reporting requirements:

Reports will be provided to the U.S. Fish and Wildlife office appearing in Condition K of this Permit.

Authorizations and Conditions:

A. General conditions set out in Subpart B of 50 CFR 13, and specific conditions contained in Federal regulations cited above, are hereby made a part of this permit. All activities authorized herein must be carried out in accordance with and for the purposes described in the application submitted. Continued validity, or renewal of this permit is subject to complete and timely compliance with all applicable conditions, including the filing of all required information and reports.

B. The validity of this permit is also conditioned upon strict observance of all applicable foreign, state, local tribal, or other federal law.

THIS PERMIT CONSISTS OF CONDITIONS A - K (5 PAGES TOTAL) AND TWO APPENDICES (2 PAGES TOTAL).

C. Valid for use by Permittee named above. The Permittee is defined as those entities which hold, or will hold, any right, title, or interest in any portion of the covered property over the duration of this Permit.

NATIVE ENDANGERED SP. HABITAT CONSERVATION PLAN

Permit Number: ESPER0002583

Version Number: 1

Effective: 2021-08-06 Expires: 2071-03-04

D. Acceptance of this Permit serves as evidence that the Permittee and its authorized agents understand and agree to abide by the terms of this Permit and all sections of Title 50 Code of Federal Regulations, Parts 13 and 17, pertinent to issued permits. Section 11 of the Endangered Species Act of 1973, as amended, provides for civil and criminal penalties for failure to comply with permit conditions.

E. The Project area encompasses 0.465 acre (approximately 20,240 square feet) where the Permittee proposes construction of a single-family residence as shown in the appended plats. Field surveys indicate that the Project area provides suitable habitat which may be used by the endangered Alabama beach mouse (ABM) (*Peromyscus polionotus ammobates*). Incidental take of the ABM is restricted to the permanent destruction of approximately 0.090 acre (3,936 square feet) of this habitat within the Project construction footprint, which would be permanently eliminated due to Project construction and site occupancy after construction.

The Permittee, and any authorized agents, are authorized to take the ABM within the Project construction footprint incidental to earth moving, grading, and other land alteration and construction activities necessary to construct a residential structure as described in the Permittee's Habitat Conservation Plan (HCP), and as conditioned herein. This Permit does not authorize take of any covered species outside of the project construction footprint or as a result of unlawful activities. Occupancy of the completed residence, in accordance with the HCP is also authorized.

F. This permit is transferable to subsequent owners of the covered property, however specific steps, per 50 C.F.R. § 13.25, must be undertaken by the Permittee for this to be done. Prior to transference of fee simple title of any portion of the real property, the Permittee and the new property owner must provide signed notification to the Service, identified in Condition K below, that a transfer of ownership is pending. This notification must include the permit number ("TE-----", as it appears above), seller's name, the tax identification number of the property, and a Form 3-200-56 completed and signed by the buyer. The new owner must also provide a signed agreement stating the buyer is aware of, and agrees to, the terms and conditions of the original Habitat Conservation Plan and this permit. The buyer also agrees not to exceed the incidental take amount allowed in this permit. Failure to follow these guidelines may result in a violation of section 9 of the Endangered Species Act, which may result in legal penalties, and/or the suspension or revocation of the Permit.

G. The following measures must be employed by the Permittee to ensure that take of the ABM is minimized and fully mitigated:

Driveways shall be constructed of concrete, asphalt, sand-filled geoweb, or Service-approved polymer-based binder and be of the minimum size practicable. Driveways, including the section crossing the road right-of-way, shall not exceed in width into the setback areas. Driveways longer than 100 feet shall be 12 feet in width. The use of gravel and oyster shells are no longer permitted as driveway materials because hurricane storm surge can move these materials from their source location, contaminating adjacent habitats. Driving and/or parking in natural areas of the Project area, outside of the development footprint, is not permitted.

2. County waste disposal services are available and will be utilized for household garbage. Additionally, no user of the property may accumulate any refuse capable of attracting rodents. All refuse will be disposed of using a refuse container that is rodent and scavenger-proof. The Permittee will assure at all times the availability of such containers.

3. No lumber, metals, nor bulk materials will be kept, stored, or accumulated on the property excepting only building materials during construction. The Permittee will provide each contractor, including each proposed residence, with specific written requirements reflecting the entirety of the conditions controlling refuse disposal and removal and limitations on material storage. The area of the site to be used for staging building materials will be minimized and such areas will be restored to natural state post construction. Construction debris will be placed in a dumpster, on a daily basis, located on site for this purpose. Vehicle and construction equipment will not be parked within ABM habitat. No hazardous materials (including oil and gas), will be stored in ABM habitat areas.

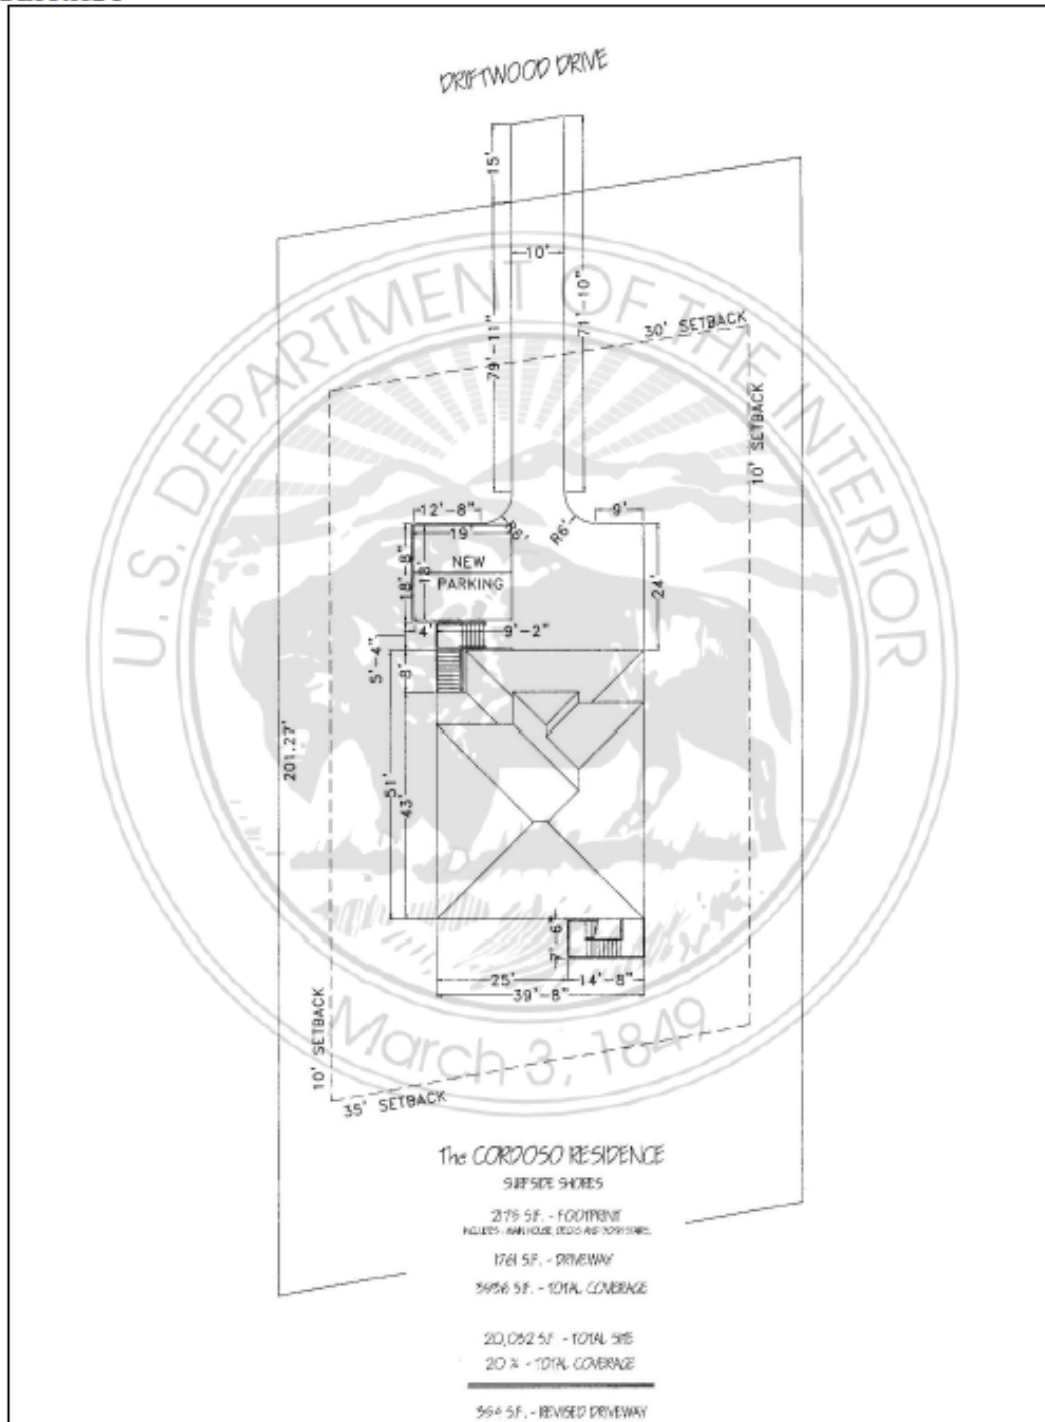

4. The Permittee will not alter the natural topography of the lot outside of the developed area, including sand deposited on the lot from tropical storm winds and surge. The developed area will be confined to the footprint of the residence and the driveway, as described in the HCP. A copy of the
